Message From Chairman's Desk

Jai Shree Krushn

At MSA, we have achieved unprecedented growth and success in our efforts to empower rural communities with health, education, livelihoods, and environmental justice. Our comprehensive approach to social progress and self-reliance aims to build a better, stronger, and more just society. Our multipurpose program is coordinated for agriculture, social welfare, education, and health.

As the saying goes, "Alone we can do so little, together we can do so much." I welcome our well-wishers to share in our successes of 2022. I am pleased to present this quarterly newsletter, highlighting our achievements in the last quarter of 2022.

Thank You
Dr. Vikram Patel

Nuclear Medicine Dept.

Two new tests were introduced in the Nuclear Medicine (PET CT) department. We are the first in Gujarat to perform these two tests.

68Ga-FAPI PET/CT - Fibroblast activation protein (FAP)

It is a promising new diagnostic method for imaging various kinds of cancer, in particular pancreatic, head and neck,

colon, lung, and breast cancer, with enhanced tumour-to-background contrast ratios.

The favourable characteristics of the new test include fast tracer that seems appropriate for imaging patients in less than 1 h after injection; low background uptake in the liver, oral mucosa, and brain; and independence from blood sugar.

The camera takes images of the heart during stress and again later at rest. The two sets of images are compared.

Stress Myocardial perfusion Scan

The scan shows damaged area of heart or area with decreased blood flow.

Nursing College academic year 2021-2022 B.Sc Nursing result

93% overall passing rate

COURSES	YEAR	FIRST RANK	SECOND RANK	THIRD RANK
BASIC B.Sc. NURSING	Second	Dhvani N Pareich 73.86%	Indravadan A Parmar 71.85%	Krishna H Thakar 70.57%
	Third	Drasti K Bhoi 77.71%	Purva V Bhatt 77.14%	Bhargavi J Baria 75.85%
	Fourth	Isha B Patel 78.50%	Ravi J Parmar 77.50%	Kartik J Derola 76 %
GNM	Third	Kalpna Dhinga 77.25%	Rathod Kailash 67.75%	Jayraj Parmar 67.50 %

Oath taking & lamp lighting Ceremony of the Nursing students

The oath-taking ceremony is a solemn ceremony where the nursing undergraduates take an oath after receiving their cap and the lamp. The Nursing student should understand importance of the Nursing profession and its dignity. By taking an oath and a nursing pledge, students were formally inducted into the noble profession of nursing where they would carry on their duties with compassion, empathy, love and devotion.

These are the essential principles of nursing and are important for nurses to always follow. The tradition of lamp lighting ceremony serves as an icon and inspiration in the nursing profession from Florence Nightingale who is known as the founder of modern nursing. The lamp-lighting ceremony formally declares the student's entry into the nursing profession.

First Year Nursing students taking Oath

**Students receiving lamps from the Chief Guest Prof. Dr. Pratapsinh Chauhan
Hon. Vice Chancellor of Shri Govind Guru University Godhara.**

Kailash Cancer Hospital & Research Center Clinical Research Dept.

The clinical research team with European Medicines Agency (EMA) inspectors and CRO colleagues

The clinical Research Department was established in 2013 to bring newer treatments in Cancer through Multicentric, randomized, global trials and improve the quality of life of our patients undergoing cancer treatment.

Special Features & developments of the Research Department:

- NABH accredited Institutional Ethics Committee.
- The Ethics Committee has reviewed more than 100 Protocols to date.
- The Research Department has completed about 70 trials & About 10 trials are ongoing.

We have multiple Academic Studies that we conduct through the National Cancer Grid and the Foundation of Head And Neck Oncology Group.

We are doing several Clinical trials for Metastatic Breast Cancer, Metastatic Ovarian Cancer, Head And Neck Cancer, Diffuse Large B Cell Cancer, and Non-Squamous Lung Cancer to enumerate a few.

We are doing several Genetic studies with the collaboration of the MedGenome lab to determine the Mutational landscape in Head and Neck Cancer, Ovarian Cancer, Lung Cancer and Familial Colorectal Cancers.

The Research Department was inspected twice by the USFDA in 2017 and 2019 without any deficiency and recently in December 2021, we received the European Medicines Agency (EMA) GCP accreditation.

The Clinical Research Department has conducted about seven Good Clinical Practice (GCP) workshops for our Investigators, Ethics Committee members, Research Staff and Clinical Staff in the last 9 years.

Vocational Training Center Special Visitor

Dr. Jagdish Trivedi, a renowned humorist, philanthropist, poet, and philosopher, was the special guest at the Muni Seva Ashram operated Vocational Training Center this quarter. He gave a highly motivating speech to our VTC students, and was very impressed with the facilities. He has agreed to collaborate with us for this noble cause and has offered to conduct multiple fundraising programs, free of charge, for MSA in Canada and the United States during the summer of 2023

Dr. Jagdish Trivedi handing over a donation cheque to Dr. Vikram Patel (Chairperson)

Awareness program on importance of birth control

In India, overpopulation leads to poverty, crime, and unemployment. The National Family Planning Program of India, initiated in 1952, is well-known for its "Hum do, hamare do" slogan. This program advocates for couples to have only two children, as a way to slow the rapid population growth in India.

At our VTC, our talented students put on a play focused on "Population Awareness" and promoting the use of contraception methods such as vasectomy and tubectomy.

Vivekanand Uchchatar Uttar Buniyadi Vidyalaya (High School) inculcating good habits in the Students

Every morning, the students perform yoga. A Yog Shibir was also organized to educate them about its benefits and to foster greater enthusiasm for the practice.

Sports

Engaging in various sports helps students develop life skills such as teamwork, leadership, accountability, patience, self-confidence, and equips them to tackle life's challenges. Through sports, students have the opportunity to improve their physical and mental abilities and set themselves up for success in life.
